## **Words of Knowledge (Part 2)**

...

**Class 6 - Session 1**

**Q2. Hearing God & Prophetic Gifts**

## Tips on growing in the gift

1. You have access to that which you value. What you value is reflected in how you spend your time and effort.
2. Don't be content with general information, seek specificity.
3. Cultivate a lifestyle of holy risk-taking. Be around and learn from other risk-takers.
4. Overcome performance mentality.
5. Connect with God's love for people often

# The Interior Experience of Receiving Words of Knowledge

1. It is not the same as natural discernment or intuition
2. Getting words is like tapping into God's mind and heart for a person
3. The content and revelation often come in very quick impressions
4. Usually involves a relational process of engaging in dialogue with God
5. Develop an internal rating system

We need to approach words of knowledge in the same way we approach healing: *God wants to use us more than we think!*
